RISK FACTORS

Risks Related to the Company's Business and Industry

There is a market that currently exist for our products and services.

Although we have identified what we believe to be a need in the market for HCISS products/services, there can be no assurance that demand or a market will develop or that we will be able to create a viable business. Our future financial performance will depend, at least in part, upon the introduction and market acceptance of the HCISS products/services. Potential customers may be unwilling to accept, utilize or recommend any of HCISS proposed products/services. If we are unable to commercialize and market our proposed products/services when planned, we may not achieve any market acceptance or generate revenue.

To date, we have not generated revenue, however, we do foresee generating revenue in the near future which will not be enough and therefore rely on external financing.

We are a startup Company and our business model currently focuses on cybersecurity software development. While we intend to generate revenue in the future, we cannot assure you when or if we will be able to do so.

We expect capital outlays and operating expenditures to increase over the next several years as we expand our infrastructure, commercial operations, development activities.

Our future funding requirements will depend on many factors, including but not limited to the following:

- * The cost of expanding our operations;
- * The financial terms and timing of any collaborations, licensing or other arrangements into which we may enter;
- * The rate of progress and cost of development activities;
- * The cost and delays in product development that may result from changes in regulatory requirements applicable to our products;
- * Sales and marketing efforts to bring these new product candidates to market;
- * Unforeseen difficulties in establishing and maintaining an effective sales and distribution network; and
- * Lack of demand for and market acceptance of our products and technologies.

We may have difficulty obtaining additional funding and we cannot assure you that additional capital will be available to us when needed, if at all, or if available, will be obtained on terms acceptable to us. If we raise additional funds by issuing additional debt securities, such debt instruments may provide for rights, preferences or privileges senior to the Securities. In addition, the terms of the debt securities issued could impose significant restrictions on our operations. If we raise additional funds through collaborations and licensing arrangements, we might be required to relinquish significant rights to our technologies or product candidates, or grant licenses on terms that are not favorable to us. If adequate funds are not available, we may have to

delay, scale back, or eliminate some of our operations or our research development and commercialization activities. Under these circumstances, if the Company is unable to acquire additional capital or is required to raise it on terms that are less satisfactory than desired, it may have a material adverse effect on its financial condition.

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

We were incorporated under the laws of Illinois on May 1, 2020. Accordingly, we have no history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with a new enterprise. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of an approved product and revenues from sales, as well as the inherent business risks associated with our company and present and future market conditions. Our business currently does not generate any sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

The development and commercialization of our products/services is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products/services and thus may be better equipped than us to develop and commercialize products/services. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies.

Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our [products/services] will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Arundhati Datta who are Advisor/CTO - (from 2022 to Present) of the Company. The Company has or intends to enter into employment agreements with Arundhati Datta although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Arundhati Datta or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

The amount of capital the Company is attempting to raise in this Offering is not enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company will need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we will not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of his or her investment.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Arundhati Datta in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of Arundhati Datta die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and its operations.

We have not prepared any audited financial statements.

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S. and various foreign jurisdictions.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

We face risks relating to public health conditions such as the COVID-19 pandemic, which could adversely affect the Company's customers, business, and results of operations.

Our business and prospects could be materially adversely affected by the COVID-19 pandemic or recurrences of that or any other such disease in the future. Material adverse effects from COVID-19 and similar occurrences could result in numerous known and currently unknown ways including from quarantines and lockdowns which impair the Company's business. The effects of a pandemic can place travel restrictions on key personnel which could have a material impact on the business. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could reduce the demand for the Company's products and impair the Company's business prospects including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

The Securities do not accrue interest or otherwise compensate Investors for the period in which the Company uses proceeds from the Offering.

The Securities will accrue no interest and have no maturity date. Therefore, Investors will not be compensated for the time in which the Company uses the proceeds from the Offering before a possible Equity Financing or Liquidity Event that could result in the conversion of the Security, to the benefit of the Investor.

The collection, processing, storage, use and disclosure of personal data could give rise to liabilities as a result of governmental regulation, conflicting legal requirements or differing views of personal privacy rights.

We receive, collect, process, transmit, store and use a large volume of personally identifiable information and other sensitive data from customers and potential customers. There are federal, state and foreign laws regarding privacy, recording telephone calls and the storing, sharing, use, disclosure and protection of personally identifiable information and sensitive data. Specifically, personally identifiable information is increasingly subject to legislation and regulations to protect the privacy of personal information that is collected, processed and transmitted. Any violations of these laws and regulations may require us to change our business practices or operational structure, address legal claims and sustain monetary penalties and/or other harms to our business.

The regulatory framework for privacy issues in the United States and internationally is constantly evolving and is likely to remain uncertain for the foreseeable future. The interpretation and application of such laws is often uncertain, and such laws may be interpreted and applied in a manner inconsistent with our current policies and practices or require changes to the features of our platform. If either we or our third party service providers are unable to address any privacy concerns, even if unfounded, or to comply with applicable laws and regulations, it could result in additional costs and liability, damage our reputation and harm our business.

Our regulatory compliance programs and other enterprise risk management efforts cannot eliminate all systemic risk.

We have devoted significant time and energy to develop our enterprise risk management program, including substantially expanded regulatory compliance policies and procedures. We expect to continue to do so in the future. The goal of enterprise risk management is not to eliminate all risk, but rather to identify, assess and rank risk. The goal of regulatory compliance policies is to have formal written procedures in place that are intended to reduce the risk of inadvertent regulatory violations. Nonetheless, our efforts to identify, monitor and manage risks may not be fully effective. Many of our methods of managing risk and exposures depend upon the implementation of federal and state regulations and other policies or procedures affecting our customers or employees. Management of operational, legal and regulatory risks requires, among other things, policies and procedures, and these policies and procedures may not be fully effective in managing these risks.

While many of the risks that we monitor and manage are described in this Risk Factors section of this Memorandum, our business operations could also be affected by additional factors that are not presently described in this section or known to us or that we currently consider immaterial to our operations.

Our operating results may fluctuate due to factors that are difficult to forecast and not within our control.

Our past operating results may not be accurate indicators of future performance, and you should not rely on such results to predict our future performance. Our operating results have fluctuated significantly in the past, and could fluctuate in the future. Factors that may contribute to fluctuations include:

- * changes in aggregate capital spending, cyclicalities and other economic conditions, or domestic and international demand in the industries we serve;
- * our ability to effectively manage our working capital;
- * our ability to satisfy consumer demands in a timely and cost-effective manner;
- * pricing and availability of labor and materials;
- * our inability to adjust certain fixed costs and expenses for changes in demand;
- * shifts in geographic concentration of customers, supplies and labor pools; and
- * seasonal fluctuations in demand and our revenue.

Our ability to sell our products and services is dependent on the quality of our technical support services, and our failure to offer high quality technical support services would have a material adverse effect on our sales and results of operations.

Once our products are deployed within our end-customers' operations, end-customers depend on our technical support services to resolve any issues relating to these products. If we do not effectively assist our customers in deploying these products, succeed in helping our customers quickly resolve post-deployment issues, and provide effective ongoing support, our ability to sell additional products and services to existing customers would be adversely affected and our

reputation with potential customers could be damaged. As a result, our failure to maintain high quality support services would have an adverse effect on our business and results of operations.

We may be adversely affected by cyclical, volatility or an extended downturn in the United States or worldwide economy, or in or related to the industries we serve.

Our revenues are generated primarily from servicing customers seeking to hire qualified professionals in the technology and finance. Demand for these professionals tends to be tied to economic and business cycles. Increases in the unemployment rate, and other vertical industries we serve, cyclical or an extended downturn in the economy could cause our revenues to decline. Therefore, our operating results, business and financial condition could be significantly harmed by an extended economic downturn or future downturns, especially in regions or industries where our operations are heavily concentrated. Further, we may face increased pricing pressures during such periods as customers seek to use lower cost or fee services, which may adversely affect our financial condition and results of operations.

Failure to obtain new clients or renew client contracts on favorable terms could adversely affect results of operations.

We may face pricing pressure in obtaining and retaining our clients. Our clients may be able to seek price reductions from us when they renew a contract, when a contract is extended, or when the client's business has significant volume changes. They may also reduce services if they decide to move services in-house. On some occasions, this pricing pressure results in lower revenue from a client than we had anticipated based on our previous agreement with that client. This reduction in revenue could result in an adverse effect on our business and results of operations.

Further, failure to renew client contracts on favorable terms could have an adverse effect on our business. Our contracts with clients generally run for several years and include liquidated damage provisions that provide for early termination fees. Terms are generally renegotiated prior to the end of a contract's term. If we are not successful in achieving a high rate of contract renewals on favorable terms, our business and results of operations could be adversely affected.

Industry consolidation may result in increased competition, which could result in a loss of customers or a reduction in revenue.

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors may enter our market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. The potential entrants may have competitive advantages over us, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from combinations or that expand or vertically integrate their business to include the market that we address may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of our customers or a reduction in our revenue.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

Like others in our industry, we continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Risks Related to the Securities

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

Investors will not become equity holders until the Company decides to convert the Securities into Membership interest or until an IPO or sale of the Company.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time, and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities. The Company is under no obligation to convert the Securities into Membership interest (as such term is defined in the Operating Agreement) (the type of equity Securities the Investors are entitled to receive upon such conversion). In certain instances, such as a sale of the Company, an IPO or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company.

Investors will not have voting rights, even upon conversion of the Securities into Membership interest.

The Investor is not entitled, as a holder of this Safe, to vote or be deemed a holder of Units for any purpose other than tax purposes, nor will anything in this Safe be construed to confer on the Investor, as such, any rights of a Company Unit holder or rights to vote for the election of directors or the board of managers or on any matter submitted to Company Unit holders, or to give or withhold consent to any action or to receive notice of meetings of the Company's members, until Units have been issued on the terms described in Section 1. However, if the Company makes a distribution on outstanding Units (that is not payable in Units) while this Safe is outstanding, the Company will pay the Distribution Amount to the Investor at the same time.

No Inspection or Information Rights.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders may have such rights. Regulation CF requires only the provision of an annual report on Form C-AR and no additional information. This lack of information could put Investors at a disadvantage in general and with respect to other security holders.

In a dissolution or bankruptcy of the Company, Investors will receive a pro-rata portion of the proceeds.

If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

Liquidation Priority.

In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard non-participating Preferred Units. The Investor's right to receive its Cash-Out Amount is:

Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Units).

Termination.

This Safe will automatically terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this Safe) immediately following the earliest to occur of: (i) the issuance of Units to the Investor pursuant to the automatic conversion of this Safe under Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b) or Section 1(c).

Investors will be unable to declare the Security in "default" and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any "default" provisions upon which the Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may the Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a

sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Determination of Valuation Cap

The valuation cap incorporated in the Securities has been internally determined and bears no specific relationship to any established criteria of value such as book value or earnings, or any combination thereof. No valuation or appraisal of the Company's potential business has been prepared. The "**Post-Money Valuation Cap**" is \$12,000,000.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C/A AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

Our significant challenges are developing, sales and marketing a viable product in a competitive environment and sourcing consistent third-party manufacturers to ensure we have sufficient quantities of our product when necessary.

The Company intends to improve profitability in the next 12 months. Focusing on Sales to acquire clients. 2. Continue developing MVP of our Secure Cloud Agnostic platform "BSECAlink." 3. Development of a Go-To-Market strategy for growth.

Liquidity and Capital Resources

The Offering proceeds are essential to our operations. We plan to use the proceeds as set forth above under "use of proceeds", which is an indispensable element of our business strategy. The Offering proceeds will have a beneficial effect on our liquidity, as we currently have \$1500 in cash on hand which will be augmented by the Offering proceeds and used to execute our business strategy.

The Company does not have any additional sources of capital other than the proceeds from the Offering.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the future.

Material Changes and Other Information

Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Purchasers should consider whether achievement of each step within the estimated time frame is realistic in their judgment. Potential Purchasers should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

The financial statements are an important part of this Form C/A and should be reviewed in their entirety. The financial statements of the Company are attached hereto as Exhibit A.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 4,800 Series A Units of SAFE (Simple Agreement for Future Equity) for up to \$480,000.00. The Company is attempting to raise a minimum amount of \$100,000.00 in this Offering (the "Minimum Amount"). The Company must receive commitments from investors in an amount totaling the Minimum Amount by October 10, 2024 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be canceled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$480,000.00 (the "Maximum Amount") and the additional Securities will be allocated at the Company's discretion .

The price of the Securities does not necessarily bear any relationship to the asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with Bank Vista until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers.

If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be canceled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. The Securities

We request that you please review our organizational documents and the Series A SAFE instrument agreement in conjunction with the following summary information.

Authorized Capitalization

See Capitalization and Ownership section above.

Not Currently Equity Interests

The Securities, when initially issued, will not be equity interests in the Company and can be thought of as the right to receive equity at some point in the future upon the occurrence of certain events.

Determination of Valuation Cap

The valuation cap incorporated in the Securities has been internally determined and bears no specific relationship to any established criteria of value such as book value or earnings, or any

combination thereof. No valuation or appraisal of the Company's potential business has been prepared. The "**Post-Money Valuation Cap**" is \$12,000,000.

Dividends

The Securities do not entitle the Investors to any dividends.

Conversion

Equity Financing.

If there is an Equity Financing before the termination of this Safe, on the initial closing of such Equity Financing, this Safe will automatically convert into the number of Safe Preferred Units equal to the Purchase Amount divided by the Conversion Price.

In connection with the automatic conversion of this Safe into Safe Preferred Units, the Investor will execute and deliver to the Company all of the transaction documents related to the Equity Financing; *provided*, that such documents (i) are the same documents to be entered into with the purchasers of Standard Preferred Units, with appropriate variations for the Safe Preferred Units if applicable, and (ii) have customary exceptions to any drag-along applicable to the Investor, including (without limitation) limited representations, warranties, liability and indemnification obligations for the Investor.

Refer to Exhibit B - Series A SAFE Agreement.

Liquidity Event.

If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds, due and payable to the Investor immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to the greater of (i) the Purchase Amount (the "**Cash-Out Amount**") or (ii) the amount payable on the number of Units equal to the Purchase Amount divided by the Liquidity Price (the "**Conversion Amount**").

If any of the Company's Unit holders are given a choice as to the form and amount of Proceeds to be received in a Liquidity Event, the Investor will be given the same choice, *provided* that the Investor may not choose to receive a form of consideration that the Investor would be ineligible to receive as a result of the Investor's failure to satisfy any requirement or limitation generally applicable to the Company's Unit holders, or under any applicable laws.

Refer to Exhibit B - Series A SAFE Agreement.

Dissolution Event.

If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

Refer to Exhibit B - Series A SAFE Agreement.

Termination.

This Safe will automatically terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this Safe) immediately following the earliest to occur of: (i) the issuance of Units to the Investor pursuant to the automatic conversion of this Safe under Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b) or Section 1(c).

Refer to Exhibit B - Series A SAFE Agreement.

Voting and Control.

The Investor is not entitled, as a holder of this Safe, to vote or be deemed a holder of Units for any purpose other than tax purposes, nor will anything in this Safe be construed to confer on the Investor, as such, any rights of a Company Unit holder or rights to vote for the election of directors or the board of managers or on any matter submitted to Company Unit holders, or to give or withhold consent to any action or to receive notice of meetings of the Company's members, until Units have been issued on the terms described in Section 1. However, if the Company makes a distribution on outstanding Units (that is not payable in Units) while this Safe is outstanding, the Company will pay the Distribution Amount to the Investor at the same time.

Anti-Dilution Rights.

Notwithstanding the foregoing, in connection with a Change of Control intended to qualify as a tax-free reorganization, the Company may reduce the cash portion of Proceeds payable to the Investor by the amount determined by its board of directors or board of managers in good faith for such Change of Control to qualify as a tax-free reorganization for U.S. federal income tax purposes, provided that such reduction (A) does not reduce the total Proceeds payable to such Investor and (B) is applied in the same manner and on a pro rata basis to all Unit holders who have equal priority to the Investor under Section 1(d).

The Securities do not have anti-dilution rights, which means that future equity financings will dilute the ownership percentage that the Investor may eventually have in the Company.

Restrictions on Transfer

Neither this Safe nor the rights in this Safe are transferable or assignable, by operation of law or otherwise, by either party without the prior written consent of the other; *provided, however*, that this Safe and/or its rights may be assigned without the Company's consent by the Investor (i) to the Investor's estate, heirs, executors, administrators, guardians and/or successors in the event of Investor's death or disability, or (ii) to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and *provided, further*, that the Company may assign this Safe in whole, without the consent of the Investor, in connection with a reorganization to change the Company's domicile.

In connection with the sale of the Series A Units of SAFE (Simple Agreement for Future Equity)s to me, I hereby acknowledge and represent to the Company as follows: I hereby acknowledge receipt of a copy of the FORM-C/A, dated on or about January 26, 2024, (the "Memorandum"), relating to the offering of the Series A Units of SAFE (Simple Agreement for Future Equity).

- a. I have carefully read the Memorandum, including the section entitled "Risks Factors", and have relied solely upon the Memorandum and investigations made by me or my representatives in making the decision to invest in the Company. I have not relied on any other statement or printed material given or made by any person associated with the offering of the Series A Units of SAFE (Simple Agreement for Future Equity)s.

- d. I understand that any sale, transfer, pledge or other disposition of the Series A Units of SAFE (Simple Agreement for Future Equity)s by me (i) may require the consent of the Chief Executive Officer of the Company, (ii) will require conformity with the restrictions contained in this Section 4, and (iii) may be further restricted by a legend placed on the instruments or certificate(s) representing the securities containing substantially the following language:

Series A SAFE

(Series A Simple Agreement for Future Equity)

THIS CERTIFIES THAT in exchange for the payment by _____ (the "Investor") of \$ _____ (the "Purchase Amount") on or about _____, Health Blockchain Security Services, LLC, a body corporate based in Illinois (the "Company"), issues to the Investor the right to receive certain membership interests of the Company subject to the terms described below.

If the Company has been converted into a corporation at the time of an event described in Section 1, then at the time of such event, (a) all references to "Units" or "membership interests" shall instead refer to "Capital Stock" or "shares"; (b) all references to "Preferred Units" shall instead refer to "Preferred Stock"; (c) all references to "Unit holders" shall instead refer to "stockholders"; and (d) any and all corresponding changes to reflect the existence of the Company as a corporation rather than a limited liability company shall be made, *mutatis mutandis*.

The "Post-Money Valuation Cap" is \$12,000,000.

See Section 2 for certain additional defined terms.

1. Events

(a) **Equity Financing.** If there is an Equity Financing before the termination of this Safe, on the initial closing of such Equity Financing, this Safe will automatically convert into the number of Safe Preferred Units equal to the Purchase Amount divided by the Conversion Price.

In connection with the automatic conversion of this Safe into Safe Preferred Units, the Investor will execute and deliver to the Company all of the transaction documents related to the Equity Financing; provided, that such documents (i) are the same documents to be entered into with the purchasers of Standard Preferred Units, with appropriate variations for the Safe Preferred Units if applicable, and (ii) have customary exceptions to any drag-along applicable to the Investor, including (without limitation) limited representations, warranties, liability and indemnification obligations for the Investor.

(b) **Liquidity Event.** If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds, due and payable to the Investor immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of Units equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount"). If any of the Company's Unit holders are given a choice as to the form and amount of Proceeds to be received in a Liquidity Event, the Investor will be given the same choice, *provided* that the Investor may not choose to receive a form of consideration that the Investor would be ineligible to receive as a result of the Investor's failure to satisfy any requirement or limitation generally applicable to the Company's

Unit holders, or under any applicable laws.

Notwithstanding the foregoing, in connection with a Change of Control intended to qualify as a tax-free reorganization, the Company may reduce the cash portion of Proceeds payable to the Investor by the amount determined by its board of directors or board of managers in good faith for such Change of Control to qualify as a tax-free reorganization for U.S. federal income tax purposes, provided that such reduction (A) does not reduce the total Proceeds payable to such Investor and (B) is applied in the same manner and on a pro rata basis to all Unit holders who have equal priority to the Investor under Section 1(d).

(c) **Dissolution Event.** If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

(d) **Liquidation Priority.** In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard non-participating Preferred Units. The Investor's right to receive its Cash-Out Amount is:

(i) Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Units);

(ii) On par with payments for other Safes and/or Preferred Units, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Units, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Units in proportion to the full payments that would otherwise be due; and

(iii) Senior to payments for Units other than Preferred Units. The Investor's right to receive its Conversion Amount is (A) on par with payments for other Safes and/or Preferred Units who are also receiving Conversion Amounts or Proceeds on a similar as-converted basis, and (B) junior to payments described in clauses (i) and (ii) above (in the latter case, to the extent such payments are Cash-Out Amounts or similar liquidation preferences).

(e) **Termination.** This Safe will automatically terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this Safe) immediately following the earliest to occur of: (i) the issuance of Units to the Investor pursuant to the automatic conversion of this Safe under Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b) or Section 1(c).

	VOICEOVER:	VISUAL:
1	<p>Greetings! My name is Daniel and I'm a data scientist, cybersecurity professional and teacher.</p> <p>I am the CEO and founder of Health Blockchain Security Services known as HCISS.</p>	<p>We open with our main character, Daniel, standing in front of a whiteboard. On the whiteboard we see dashboards, graphs and analytics.</p> <p>We see text pop ups appear beside Daniel saying:</p> <ul style="list-style-type: none"> • Data scientist • Cybersecurity professional and teacher <p>Daniel flips the white board around to the other side and we see the HCISS logo on the whiteboard.</p>
2	<p>What are we?</p>	<p>ONSCREEN TEXT: What are we?</p>
3	<p>We are a Blockchain Cybersecurity Analytics Company. We combine data science and cybersecurity to help bring businesses securely into the IT modernization digital world of blockchain technology.</p>	<p>We cut to see Daniel in an office with some workers in the background typing on their computers. We see an icon for data science and one for cybersecurity appear beside Daniel. These icons merge into one to create an icon of a blockchain model (which is boxes that are linked together with lines) we see a lock appear in the middle of the blockchain.</p>
4	<p>What is Cybersecurity Analytics?</p>	<p>ONSCREEN TEXT: What is Cybersecurity Analytics?</p>
5	<p>It is the expert study of operational analytics using auto machine learning and artificial intelligence to significantly mitigate the advances of cyber threats to the blockchain ecosystem.</p>	<p>We cut to see a new character wearing glasses and analyzing data on a large computer monitor with the heading "Operational Analytics". Under the heading we see graphs, code, and icons for auto machine learning and artificial intelligence.</p> <p>TEXT: Mitigate the advances of cyber threats to the blockchain ecosystem</p>
6	<p>What does HCISS do?</p>	<p>ONSCREEN TEXT: What does HCISS do?</p>

7	<p>We are offering a solution to very serious security threats that has impacted, not just to the blockchain businesses, but to the clients they serve.</p> <p>This solution will prevent hackers from attacking security vulnerabilities within the blockchain and smart contracts in particular.</p> <p>Our solution is a blockchain security analytics business model called: Blockchain Cybersecurity Analytics or BSECA as a Service.</p>	<p>We see Daniel back in the office pointing to a floating screen. At the top of the screen we see the HCISS logo. Under the logo we see a large business building that is connected to many customer icons. We see a dots of data that flow from the business to the customers.</p> <p>We cut to see a hacker character at their computer with a cheeky grin. We see onscreen text saying: \$2 billion in theft since 2017. Above the hackers computer we see a smart contract icon that a cursor clicks on. The lock from the HCISS logo appears on the smart contract with a text pop up saying “Smart Contract Secured – Access Denied”. The hacker looks shocked.</p> <p>We zoom into the lock on the smart contract icon to reveal the HCISS logo and next to it we see text saying: Blockchain Cybersecurity Analytics or BSECA as a Service.</p>
8	What is BSECA as a Service?	ONSCREEN TEXT: What is BSECA as a Service?
9	BSECA as a Service is an Autonomous Breach Protection e-Governance platform that addresses and prevents the forging of smart contracts, advanced cybersecurity vulnerabilities and threats relating to smart contracts.	<p>We see a new businesswoman character using her laptop. On the laptop screen we see the BSECA as a Service platform in action as a smart contract is scanned and protected – we see the analytics from the smart contract appear on screen. We see a checklist appear beside the laptop saying:</p> <p><u>BSECA as a Service prevents:</u></p> <ul style="list-style-type: none"> • Forging of smart contracts • Advanced cybersecurity vulnerabilities and threats
10	What are smart contracts?	ON SCREEN TEXT: What are smart contracts?
11	Smart contracts are digital contracts that create a binding agreement between two parties.	We see two new characters at their computers in separate rooms. A line appears between their computers to connect them and a contract titled “Smart Contract” appears and is connected in the middle of the lines. The smart contract then flies out of the frame.
12	Why is cybersecurity important?	ON SCREEN TEXT: Why is cybersecurity important?

13	Once smart contracts are deployed, it's hard to fix vulnerabilities or bugs, which is why HClSS uses machine learning and artificial intelligence to detect and resolve these issues.	We see the smart contract from before that flies into this new frame and onto a computer screen being used by a new character. A virus icon appears on the smart contract. The computer scans the document (we see an icon for machine learning and artificial intelligence appear). The virus icon is then erased and a green check mark appears on the smart contract.
14	Blockchain is a digital ledger of transactions across a network, and cryptocurrency is digital currency that's distributed through the blockchain.	We see a blockchain visual consisting of connected boxes that form a digital network. We then see a cryptocurrency coin appear on one of the boxes that is then distributed to the rest of the boxes (each box now has a cryptocurrency coin), creating a flowing/conveyor belt visual of moving coins.
15	Why invest in our Autonomous Breach Protection platform BSECA as a Service?	ON SCREEN TEXT: Why invest in our Autonomous Breach Protection platform BSECA as a Service?
16	<p>Smart contract-related theft is on the rise. 2016 alone saw \$1.5 billion in losses, which rose to \$4.2 billion in 2020.</p> <p>The security analytics market is projected to grow from \$7.8 billion in 2019 to \$18.1 billion by 2024,</p> <p>While the smart contract market is projected to rise from \$109.8 million in 2019 to \$208.3 million in 2025.</p>	<p>We see a bar graph with the heading "Smart Contract Theft". We see a bar titled 2016 rise to the figure \$1.5 billion. Another bar appears beside it titled 2020 that rises to the figure showing \$4.2 billion.</p> <p>We pan right to see a line graph titled "Security Analytics Market" with a line starting at the bottom of the graph at 2019 rising to \$7.9 billion which rises further up to hit \$18.1 billion in 2024.</p> <p>Cut to see a single rising bar titled "Smart Contract Market" at the top. Under the bar it says 2019. Inside the bar itself we see the \$109.8 million figure. The bar continues to rise and the figure inside the bar changes to \$208.3 million while the year under the bar changes to 2025.</p>
17	This makes cybersecurity a necessity and investing in it a no-brainer!	We zoom out from the previous figure of the rising bar to see it on the whiteboard with our Daniel character pointing to it.
18	What are you waiting for? Invest in HClSS – The future of cybersecurity is safe with us!	<p>We close with the dynamic banner showing the HClSS logo and animating shield. Under this we see text showing links to the icons of various social platforms:</p> <p>Email: daniel.addison@hciss.io</p> <p>YouTube:</p>
