RISK FACTORS

Risks Related to the Company's Business and Industry

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Ryan Donker who is the Member of the Company. The Company has or intends to enter into employment agreements with Ryan Donker although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Ryan Donker or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Ryan Donker in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of Ryan Donker die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such a person could negatively affect the Company and its operations.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S. and various foreign jurisdictions.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations

where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

The Company's business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a "pandemic." COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company's business could be materially and adversely affected. The extent to which COVID-19 impacts the Company's business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, the Company's operations may be materially adversely affected.

Changes in government regulation could adversely impact our business.

The media/internet/entertainment industry is subject to extensive legislation and regulation at the federal and local levels and, in some instances, at the state level. Additionally, our product/services are also subject to regulation, and additional regulation is under consideration. Many aspects of such regulation are currently the subject of judicial and administrative proceedings, legislative and administrative proposals, and lobbying efforts by us and our competitors. Legislation under consideration could entirely rewrite our principal regulatory statute, and the FCC and/or Congress may attempt to change the classification of or change the way that our [name specific product or service] are regulated and/or change the framework under which broadcast signals are carried, remove the copyright compulsory license and changing rights and obligations of our competitors. We expect that court actions and regulatory proceedings will continue to refine our rights and obligations under applicable federal, state and

local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

New technologies may make our products and services obsolete or unneeded.

New and emerging technological advances, such as mobile computing devices that allow consumers to obtain information and view content may adversely impact or eliminate the demand for our products and services. The increasing availability of content on such devices, the improved video quality of the content on such devices and faster wireless delivery speeds may make individuals less likely to purchase our services. Our success can depend on new product development. The entertainment and communications industry is ever-changing as new technologies are introduced. Advances in technology, such as new video formats, downloading or alternative methods of product delivery and distribution channels, such as the Internet, or certain changes in consumer behaviour driven by these or other technologies and methods of delivery, could have a negative effect on our business. These changes could lower cost barriers for our competitors desiring to enter into, or expand their presence in, the interactive services business. Increased competition may adversely affect our business and results of operations.

We face risks relating to competition for the leisure time and discretionary spending of audiences, which has intensified in part due to advances in technology and changes in consumer expectations and behaviour.

Our business is subject to risks relating to increasing competition for the leisure time and discretionary spending of consumers. We compete with all other sources of entertainment and information delivery. Technological advancements, such as new video formats and Internet streaming and downloading of programming that can be viewed on televisions, computers and mobile devices have increased the number of entertainment and information delivery choices available to consumers and intensified the challenges posed by audience fragmentation. The increasing number of choices available to audiences, including low-cost or free choices, could negatively impact not only consumer demand for our products and services, but also advertisers' willingness to purchase advertising from us. Our failure to effectively anticipate or adapt to new technologies and changes in consumer expectations and behaviour could significantly adversely affect our competitive position and its business and results of operations.

Piracy of the Company's content may decrease the revenues received from the sale of our content and adversely affect our businesses.

The piracy of our content, products and other intellectual property poses significant challenges for us. Technological developments, such as the proliferation of cloud-based storage and streaming, increased broadband Internet speed and penetration and increased speed of mobile data transmission have made it easier to create, transmit, distribute and store high quality unauthorized copies of content in unprotected digital formats, which has in turn encouraged the creation of highly scalable businesses that facilitate, and in many instances financially benefit from, such piracy. Piracy is particularly prevalent in many parts of the world that lack effective copyright and technical legal protections or enforcement measures, and illegitimate operators based in these parts of the world can attract viewers from anywhere in the world. The proliferation of unauthorized copies and piracy of the Company's content, products and intellectual property or the products it licenses from others could result in a reduction of the revenues that the Company receives from the legitimate sale, licensing and distribution of its content and products. The Company devotes substantial resources to protecting its content,

products and intellectual property, but there can be no assurance that the Company's efforts to enforce its rights and combat piracy will be successful.

Our success depends on consumer acceptance of our content and we may be adversely affected if our content fails to achieve sufficient consumer acceptance or the costs to create or acquire content increase.

We create and acquire media and entertainment content, the success of which depends substantially on consumer tastes and preferences that change in often unpredictable ways. The success of these businesses depends on our ability to consistently create, acquire, market and distribute content that meets the changing preferences of the broad domestic and international consumer market. We have invested, and will continue to invest, substantial amounts in our content, including in the production of original content, before learning the extent to which it would earn consumer acceptance.

We also may obtain a significant portion of our content from third parties, and other suppliers. Competition for popular content is intense, and we may have to increase the price we are willing to pay or be outbid by our competitors for popular content. Entering into or renewing contracts for such programming rights or acquiring additional rights may result in significantly increased costs. There can be no assurance that revenue from these contracts will exceed our cost for the rights, as well as the other costs of producing and distributing the content. If our content does not achieve sufficient consumer acceptance, or if we cannot obtain or retain rights to popular content on acceptable terms, or at all, our businesses may be adversely affected.

We derive substantial revenues from the sale of advertising, and a decrease in overall advertising expenditures could lead to a reduction in the amount of advertising that companies are willing to purchase and the price at which they purchase it.

Expenditures by advertisers tend to be cyclical and have become less predictable in recent years, reflecting domestic and global economic conditions. If the economic prospects of advertisers or current economic conditions worsen, such conditions could alter current or prospective advertisers' spending priorities. In particular, advertisers in certain industries that are more susceptible to weakness in domestic and global economic conditions, such as beauty, fashion and retail and food, account for a significant portion of our advertising revenues, and weakness in these industries could have a disproportionate negative impact on our advertising revenues. Declines in consumer spending on advertisers' products due to weak economic conditions could also indirectly negatively impact our advertising revenues, as advertisers may not perceive as much value from advertising if consumers are purchasing fewer of their products or services. As a result, our advertising revenues are less predictable.

We rely heavily on our technology and intellectual property, but we may be unable to adequately or cost-effectively protect or enforce our intellectual property rights, thereby weakening our competitive position and increasing operating costs.

To protect our rights in our services and technology, we rely on a combination of copyright and trademark laws, patents, trade secrets, confidentiality agreements with employees and third parties, and protective contractual provisions. We also rely on laws pertaining to trademarks and domain names to protect the value of our corporate brands and reputation. Despite our efforts to protect our proprietary rights, unauthorized parties may copy aspects of our services or technology, obtain and use information, marks, or technology that we regard as proprietary, or otherwise violate or infringe our intellectual property rights. In addition, it is possible that others

could independently develop substantially equivalent intellectual property. If we do not effectively protect our intellectual property, or if others independently develop substantially equivalent intellectual property, our competitive position could be weakened.

Effectively policing the unauthorized use of our services and technology is time-consuming and costly, and the steps taken by us may not prevent misappropriation of our technology or other proprietary assets. The efforts we have taken to protect our proprietary rights may not be sufficient or effective, and unauthorized parties may copy aspects of our services, use similar marks or domain names, or obtain and use information, marks, or technology that we regard as proprietary. We may have to litigate to enforce our intellectual property rights, to protect our trade secrets, or to determine the validity and scope of others' proprietary rights, which are sometimes not clear or may change. Litigation can be time consuming and expensive, and the outcome can be difficult to predict.

We must acquire or develop new products, evolve existing ones, address any defects or errors, and adapt to technology change.

Technical developments, client requirements, programming languages, and industry standards change frequently in our markets. As a result, success in current markets and new markets will depend upon our ability to enhance current products, address any product defects or errors, acquire or develop and introduce new products that meet client needs, keep pace with technology changes, respond to competitive products, and achieve market acceptance. Product development requires substantial investments for research, refinement, and testing. We may not have sufficient resources to make necessary product development investments. We may experience technical or other difficulties that will delay or prevent the successful development, introduction, or implementation of new or enhanced products. We may also experience technical or other difficulties in the integration of acquired technologies into our existing platform and applications. Inability to introduce or implement new or enhanced products in a timely manner could result in loss of market share if competitors are able to provide solutions to meet customer needs before we do, give rise to unanticipated expenses related to further development or modification of acquired technologies as a result of integration issues, and adversely affect future performance.

Cyclical and seasonal fluctuations in the economy, in internet usage and in traditional retail shopping may have an effect on our business.

Both cyclical and seasonal fluctuations in internet usage and traditional retail seasonality may affect our business. Internet usage generally slows during the summer months, and queries typically increase significantly in the fourth quarter of each year. These seasonal trends may cause fluctuations in our quarterly results, including fluctuations in revenues.

Industry consolidation may result in increased competition, which could result in a loss of customers or a reduction in revenue.

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors may enter our market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. The potential entrants may have competitive advantages over us, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from

combinations or that expand or vertically integrate their business to include the market that we address may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of our customers or a reduction in our revenue.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

Like others in our industry, we continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

If we do not respond to technological changes or upgrade our websites and technology systems, our growth prospects and results of operations could be adversely affected.

To remain competitive, we must continue to enhance and improve the functionality and features of our websites and technology infrastructure. As a result, we will need to continue to improve and expand our hosting and network infrastructure and related software capabilities. These improvements may require greater levels of spending than we have experienced in the past. Without such improvements, our operations might suffer from unanticipated system disruptions, slow application performance or unreliable service levels, any of which could negatively affect our reputation and ability to attract and retain customers and contributors. Furthermore, in order to continue to attract and retain new customers, we are likely to incur expenses in connection with continuously updating and improving our user interface and experience. We may face significant delays in introducing new services, products and enhancements. If competitors introduce new products and services using new technologies or if new industry standards and practices emerge, our existing websites and our proprietary technology and systems may become obsolete or less competitive, and our business may be harmed. In addition, the expansion and improvement of our systems and infrastructure may require us to commit substantial financial, operational and technical resources, with no assurance that our business will improve.

Risks Related to the Securities

The Units of Common Stock will not be freely tradable until one year from the initial purchase date. Although the Units of Common Stock may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Units of Common Stock. Because the Units of Common Stock have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Units of Common Stock have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Units of Common Stock may also adversely affect the price that you might be able to obtain for the Units of Common Stock in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C/A and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A majority of the Company is owned by a small number of owners.

Prior to the Offering the Company's current owners of 20% or more beneficially own up to 100% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Delaware law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

Your ownership of the shares of stock will be subject to dilution.

Owners of do not have pre-emptive rights. If the Company conducts subsequent Offerings of or Securities convertible into , issues shares pursuant to a compensation or distribution reinvestment plan or otherwise issues additional shares, investors who purchase shares in this Offering who do not participate in those other stock issuances will experience dilution in their percentage ownership of the Company's outstanding shares. Furthermore, shareholders may experience a dilution in the value of their shares depending on the terms and pricing of any future share issuances (including the shares being sold in this Offering) and the value of the Company's assets at the time of issuance.

The Securities will be equity interests in the Company and will not constitute indebtedness.

The Securities will rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments of dividends with respect to the Securities and dividends are payable only if, when and as authorized and declared by the Company and depend on, among other matters, the Company's historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors the Company's board of directors deems relevant at the time. In addition, the terms of the Securities will not limit the amount of debt or other obligations the Company may incur in the future. Accordingly, the Company may incur substantial amounts of additional debt and other obligations that will rank senior to the Securities.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of the Company or a registration of the Securities.

There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. Furthermore, we may be unable to register the Securities for resale by Purchasers for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, Purchasers could be unable to sell their Securities unless an exemption from registration is available.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze

the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of the Company or a registration of the Securities.

There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. In the event that we are unable to effect a registration, Purchasers could be unable to sell their Securities unless an exemption from registration is available.

Income Tax Risks

Each prospective Purchaser is urged to consult with its own representatives, including its own tax and legal advisors, with respect to the federal (as well as state and local) income tax consequences of this investment before purchasing any of the Securities. Certain prospective Purchasers, such as organizations which are exempt from federal income taxes, may be subject to federal and state laws, rules and regulations which may prohibit or adversely affect their investment in the Company. We are not offering you any tax advice upon which you may rely.

Audit by Internal Revenue Service

Information tax returns filed by the Company are subject to audit by the Internal Revenue Service. An audit of the Company's tax return may lead to adjustments to such return which would require an adjustment to each Purchaser's personal federal income tax return. Such adjustments can result in reducing the taxable loss or increasing the taxable income allocable to the Purchasers from the amounts reported on the Company's tax return. In addition, any such audit may lead to an audit of a Purchaser's individual income tax return, which may lead to adjustments other than those related to the investments in the Securities offered hereby.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS Form C/A AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 20,000.00 Units of Common Stock for up to \$5,000,000.00. The Company is attempting to raise a minimum amount of \$25,000.00 in this Offering (the "Minimum Amount"). The Company must receive commitments from investors in an amount totaling the Minimum Amount by May 9, 2024 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$5,000,000.00 (the "Maximum Amount") and the additional Securities will be allocated on a Pro-rata basis.

The price of the Securities does not necessarily bear any relationship to the asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities you must make a commitment to purchase by completing the Subscription Agreement. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Digital Registry in exchange for his or her investment as soon as practicable thereafter.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. REPORT ON FINANCIAL STATEMENTS

We have audited the consolidated balance sheets of Create Marketplace, Inc. as of October 25, 2023 and the related statements of operations, changes in owner's equity and cash flows for the period then ended. These financial statements are the responsibility of the Company's management.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on my audits. We conducted my audits in accordance with generally accepted auditing standards as accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor

considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, I express no such opinion.

An audit also includes evaluating appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements.

An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

OPINION

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Create Marketplace, Inc. as of October 25, 2023, and the results of operations, changes in owner's equity and cash flows for the period then ended in conformity with accounting principles generally accepted in the United States of America.

Create Marketplace Inc
Attn: Ryan Donker
5830 E 2nd St, Ste 7000 #7868
Casper Wyoming, WY 82609

Ladies and Gentlemen:

I commit and subscribe to purchase from CREATE MARKETPLACE INC, a Wyoming Incorporation (the "Company") "Preferred Units of Membership Interests" in the dollar amount set forth below and upon the terms and conditions set forth herein.

I understand that this Subscription Agreement is conditioned upon Company's acceptance of subscriptions. If this Subscription Agreement has been accepted, the Units of Common Stock subscribed to hereby shall be issued to me in the form of Units.

With respect to such purchase, I hereby represent and warrant to you that:

1 Residence.

I am a bona fide resident of (or, if an entity, the entity is domiciled in) the state set forth on my signature page.

2 Subscription.

- a. I hereby subscribe to purchase the number of Units of Common Stock set forth below, and to make capital contributions to the Company in the amounts set forth below, representing the purchase price for the Units of Common Stock subscribed.
Principal Amount of Preferred Units of Common Stock⁽¹⁾

(1) A minimum purchase of \$250, is required for individual investors. Amounts may be subscribed for in \$2.50 increments.

- b. I acknowledge that this subscription is contingent upon acceptance by the Company, and that the Company has the right to accept or reject subscriptions in whole or in part.

3 Representations of Investor.

In connection with the sale of the Units of Common Stock to me, I hereby acknowledge and represent to the Company as follows: I hereby acknowledge receipt of a copy of the FORM-C, dated on or about December 19, 2023, (the "Memorandum"), relating to the offering of the Equity.

- a. I have carefully read the Memorandum, including the section entitled "Risks Factors", and have relied solely upon the Memorandum and investigations made by me or my representatives in making the decision to invest in the Company. I have not relied on any other statement or printed material given or made by any person associated with the offering of the Preferred Units of Membership Interests.
- b. I have been given access to full and complete information regarding the Company (including the opportunity to meet with the Board of Director Member of the Company and review all the documents described in the Memorandum and such other documents as I may have requested in writing) and have utilized such access to my satisfaction for the purpose of obtaining information in addition to, or verifying information included in, the Memorandum.
- c. I am experienced and knowledgeable in financial and business matters, capable of evaluating the merits and risks of investing in the Preferred Units of Membership Interests, and do not need or desire the assistance of a knowledgeable representative to aid in the evaluation of such risks (or, in the alternative, I have used a knowledgeable representative in connection with my decision to purchase the Preferred Units of Membership Interests).
- d. I understand that an investment in the Units of Common Stock is highly speculative and involves a high degree of risk. I believe the investment is suitable for me based on my investment objectives and financial needs. I have adequate means for providing for my current financial needs and personal contingencies and have no need for liquidity of investment with respect to the Preferred Units of Membership Interests. I can bear the economic risk of an investment in the Units of Common Stock for an indefinite period of time and can afford a complete loss of such investment.
- e. I understand that there may be no market for the Preferred Units of Membership Interests, that there are significant restrictions on the transferability of the Units of Common Stock and that for these and other reasons, I may not be able to liquidate an investment in the Units of Common stock for an indefinite period of time.
- f. I have been advised that the Units of Common Stock have not been registered under the Securities Act of 1933, as amended ("Securities Act"), or under applicable state securities laws ("State Laws") and are offered pursuant to exemptions from registration under the Securities Act and the State Laws. I understand that the Company's reliance on such exemptions is predicated in part on my representations to the Company contained herein.
- g. I understand that I am not entitled to cancel, terminate or revoke this subscription, my capital commitment or any agreements hereunder and that the subscription and agreements shall survive my death, incapacity, bankruptcy, dissolution or termination.
- h. I understand that capital contributions to the Company will not be returned after they are paid.

4 Investment Intent; Restrictions on Transfer of Securities.

- a. I understand that (i) there may be no market for the Preferred Units of Membership Interests, (ii) the purchase of the Units of Common stock is a long-term investment, (iii) the transferability of the Units of Common stock is restricted, (iv) the Units of Common Stock may be sold by me only pursuant to registration under the Securities Act and State Laws, or an opinion of counsel that such registration is not required, and (v) the Company does not have any obligation to register the Preferred Units of Membership Interests.
- b. I represent and warrant that I am purchasing the Units of Common stock for my own account, for long term investment, and without the intention of reselling or redistributing the Preferred Units of Membership Interests. The Units of Common Stock are being purchased by me in my name solely for my own beneficial interest and not as nominee for, on behalf of, for the beneficial interest of, or with the intention to transfer to, any other person, trust, or organization, and I have made no agreement with others regarding any of the Preferred Units of Membership Interests. My financial condition is such that it is not likely that it will be necessary for me to dispose of any of the Units of Common Stock in the foreseeable future.
- c. I am aware that, in the view of the Securities and Exchange Commission, a purchase of securities with an intent to resell by reason of any foreseeable specific contingency or anticipated change in market values, or any change in the condition of the Company or its business, or in connection with a contemplated liquidation or settlement of any loan obtained for the acquisition of any of the Units of Common stock and for which the Units of Common Stock were or may be pledged as security would represent an intent inconsistent with the investment representations set forth above.
- d. I understand that any sale, transfer, pledge or other disposition of the Units of Common Stock by me (i) may require the consent of the Board of Director Member of the Company, (ii) will require conformity with the restrictions contained in this Section 4, and (iii) may be further restricted by a legend placed on the instruments or certificate(s) representing the securities containing substantially the following language:

"The securities represented by this certificate have not been registered under the Securities Act of 1933, as amended, or applicable state securities laws and may not be sold, offered for sale, or transferred except pursuant to either an effective registration statement under the Securities Act of 1933, as amended, and under the applicable state securities laws, or an opinion of counsel for the Company that such transaction is exempt from registration under the Securities Act of 1933, as amended, and under the applicable state securities laws. The transfer or encumbrance of the securities represented by this certificate is subject to substantial restrictions."

5 Additional Representations of Investor.

In connection with the sale of the Units to me, I further represent and warrant to the Company as follows:

- a. Individual Investor Only. I am of legal age in my state of residence and have legal capacity to execute, deliver and perform my obligations under this Subscription Agreement and the Units. The funds to be used to invest in the Units are derived from legitimate and legal sources, and neither such funds nor any investment in the Units (or any proceeds thereof) will be used by me or by any person associated with me to finance any terrorist or other illegitimate, illegal or criminal activity. The undersigned have obtained all appropriate and necessary background information regarding its officers, directors and beneficial owners to enable the undersigned to comply with all applicable laws, rules and regulations respecting anti-money laundering activities.
- d. I did not derive any payment to the Company from, or related to, any activity that is deemed criminal under United States law.
- e. I understand that the Company is relying on the accuracy of the statements contained in this Subscription Agreement in connection with the sale of the Units to me, and the Units would not be sold to me if any part of this Subscription Agreement were untrue.
